

Pre-screened *retirement appointments*. You pay only when the prospect shows up.

Company Overview

September 2026

Company Overview

Appointments with retirees who have \$250K or more to move. You pay only when the prospect shows up.

- ✓ Pay-per-show appointments
- ✓ A consumer retirement brand
- ✓ US-based phone screening
- ✓ Reminders and replacement

HOW WE WORK

- Ad spend on us
 - Every appointment phone-confirmed
- No long-term contract
 - Priced by verified assets

\$0

Ad spend on your side. We fund the ads and the callers.

\$250K+

Minimum movable assets, verified on the phone before booking.

4 tiers

Priced by the retiree's verified assets, from \$250K to \$10M+.

Challenges in retirement lead gen

That rule exists because of what advisors tell us about the leads they buy.

Seminars fill the room with the wrong people

Most retirement leads come from seminars and generic classes. The room is full of people who came for the meal, and they cost the same to feed as the buyers.

Lead vendors bill for the lead, not the meeting

Online lead vendors charge when the form is submitted. Fake names, fake phone numbers, and no-shows all land on your card, and the vendor is paid either way.

Every conversation starts from zero

Nobody has explained who you are or what a plan with you looks like, so the first fifteen minutes go to credibility instead of their situation.

Credibility is rebuilt on every call

Because the leads arrive cold, advisors host expensive events just to establish credibility. Skip the event and the first call carries that whole job.

The *Revenue Protocol* value proposition

So you pay for a held appointment, and everything upstream of it is our cost.

THE GUARANTEE

\$0

If they don't show, you don't pay

A no-show or a cancel is replaced with another qualified prospect and never billed. Held means attended, with you on the call, above the floor you set.

THE SCREEN

\$250K+

Verified movable assets on every appointment

A US-based caller confirms age, investable assets, and whether the money can move before anything is booked. The quiz is a starting point, not the source of truth.

THE SPEED

Minutes

From form to our first call

Every lead is called while they are still at the screen, so the person on your calendar is the one who filled out the form.

THE FILTER

70 to 80%

Of raw leads never reach you

Most of what digital ads produce is screened out on the phone. What gets through has been asked the same questions you would ask.

The appointment engine

Three things happen upstream before a prospect reaches your calendar.

Find the retiree

- Ads under our consumer retirement brand, aimed at people planning their retirement
- A two-minute quiz with an asset floor, phone verification, and consent
- Assets and timeline verified again on the phone

Teach them first

- A short video and a written primer before the call
- By the meeting they know what a retirement plan review is for
- The first meeting can go straight to their situation

Vouch for you

- Our caller introduces you by name and explains why you are the right fit
- They hear your background and why they are being booked with you specifically
- By the meeting they know who you are

How it works

One system, from the ad to your calendar. Nothing lands on your calendar until a person has confirmed it with us on the phone.

CONSUMER SIDE · OUR RETIREMENT BRAND

- 1

Retirement ads

Meta and Google under our consumer retirement brand, aimed at people planning their retirement.
- 2

Two-minute quiz

Retirement status, age, biggest concern, savings band, and whether the 401(k) or IRA can move. Phone number verified before the form completes.
- 3

Phone screen within minutes

A US-based caller verifies age, investable assets, and movability. Most raw leads stop here.
- 4

Pre-education

A short video and a written primer before the meeting.

ADVISOR SIDE · YOUR FIRM

- A

Advisor onboarded

Licensed states, asset floor, booking calendar, and any disclosure language.
- B

Booked on your calendar

The caller books during the screen and introduces you by name. Reminders run to the day of the meeting.
- C

The appointment holds

BILLED

You pay for this one.
- D

No-show or cancel

NOT BILLED

Replaced with another qualified prospect. Not billed.

Who is on the other side

Appointments are screened to the profile you set at onboarding. Nothing outside it lands on your calendar.

Nationwide, Zoom or phone

We book into the states you are licensed in and the tiers you choose. Nothing else lands on your calendar.

- ✓ **\$250K or more** in retirement savings they can move, verified on the phone
- ✓ **Near or in retirement**, typically aged 60 to 75
- ✓ **Reachable**: phone number verified, and the person picked up when we called
- ✓ **Expecting you**: told who you are and why we are introducing you before the booking

4 tiers

From \$250K to \$10M+ in verified assets. Each appointment bills at the rate of the tier the person verified into, and a wrong tier rebills at the right one, in either direction.

Tiers by Verified Assets

■ Gold	\$250K to \$1M
■ Platinum	\$1M to \$2M
■ Diamond	\$2M to \$5M
■ Black	\$5M to \$10M+

Screened Out Before You

- Below the asset floor, or assets they cannot move
- Not the decision maker on the money
- Outside the states you are licensed in
- Unreachable, or the phone number does not match the person

Team

Who you work with.

Tanmay Aul

CO-FOUNDER

Sales at a \$24B cybersecurity company and an \$88B telecom, closing deals and building his own pipeline at the same time. Then ran pay-per-show pipeline programs for B2B clients, where the client pays only for a qualified prospect who shows up.

Oleg Pevzner

CO-FOUNDER

Started his career in investment banking at Evercore, one of the largest independent investment banks in the world. Then an early hire at a startup backed by Y Combinator and Sam Altman, then two years of pay-per-lead B2B lead generation. Studied finance at Ivey Business School.

Screening and follow-up team

US-BASED CALLERS

Call every lead within minutes of the form. Trained on retirement basics so the screen is a conversation, not a checklist. Book onto your calendar, introduce you by name, and run reminders to the day of the meeting.

Thank *you*
